Return On Investment – ROI

Reduced Glove Loss + Reduced Hand Injuries + Safety Incentive = Three Point ROI

1. Use of the Glove Guard® products reduces direct and indirect costs associated with hand injuries.
If personal protective equipment is available, it will be used.

“Use of the Glove Guard® clip has enabled us to far surpass our initial expectations. It has become as common as hard hats and safety glasses. Recordable hand injuries have been reduced by as much as 86%. Thanks for your continued support and assistance in making our site safer and more cost efficient.”

- Polymers Group, Mont Belvieu Plant

2. Use of the Glove Guard® products reduces glove replacement costs and the costs associated with environmental clean up. The patented breakaway also provides a level of reduced liability.

“In the last three months, about 80% of the glove replacement cost is due to lost or misplaced gloves. Your product will help greatly reduce that number.”

- Darren Matthews

In the Houston, Texas area, several General Contractors on major building sites require the Glove Guard® products for all contractors that work on the premises due to the reduced glove loss. The strong grip of the product ensures that the items stay attached instead of just falling off and the redundant breakaway reduces the possibility of an employee being pulled into machinery due to attached items.

3. Use of the Glove Guard® products along with a company’s safety program incentive combines the dollars spent with tools that actually helps accomplish the safety goals.

Major companies are using the Glove Guard® products as safety incentives with their company logo, their safety program’s slogan or one of the nine Standard Safety Slogans to get the safety message across while providing a tool to accomplish the safety goal and reduce glove replacement costs.

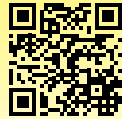

All plastic clip products made and assembled in the USA!

Glove Guard® Clip

The Glove Guard® glove clip is the original and only one with the patented safety breakaway design. For over fifteen years it has proven that its implementation can drastically reduce glove replacement costs and hand injuries because workers will have their gloves with them when needed. To use, simply clip the small end around your belt loop or directly to your clothing and clip the large end to your gloves.

Custom Imprinting Available!

Utility Guard® Clip

The Utility Guard® glove clip features the same safety features and robust design as the Glove Guard® clip but uses a belt clip instead of a small clamp to attach to the user. The belt clip is slipped over your belt, heavy waistband or pocket while the large clamp attaches to your gloves, towel or earmuffs.

Custom Imprinting Available!

Patented Safety Breakaway

Helps prevent a snagging hazard from machinery or climbing a ladder.

Engineered Grade Material

Holds its memory and resists flex fatigue.
Non-conductive and non-corrosive.

Interlocking Teeth

Will hold onto any pair of gloves or clothing*.

* Except articles that cannot tolerate a possible pinhole.

Safety Breakaway

All Utility Bag™ totes feature the patented safety breakaway to prevent a safety hazard.*

Versatile Design

All Utility Bag™ totes are available with either the small Glove Guard® end or the Utility Guard® belt clip.

* Select Utility Bag™ tote styles are available in non-breakaway versions. Please contact us for information and availability.

Goggle Guard clip

The new Goggle Guard clip is a fast and convenient way to keep safety goggles securely held to a hard hat. The clip snaps to the brim of both full brim and ball-cap style hats without any alterations or detriment to the hat. The Goggle Guard clip also features a pencil clip that can hold a No. 2 or carpenter pencils or any small to medium sized pens.

Utility Catcher® Clip

The Utility Catcher® clip is a versatile catch-all for a variety of tools and PPE items. It can be worn on a belt or slid on a grid wall and with the new keyhole it it can be hung on a wall! The Utility Catcher® clip is perfect for cord management, large gloves, ear muffs, hard hats, face shields, hoses, safety lanyards and much more!

To use, slide the clip over your belt and then open by either pulling outward on the tab or twisting left or right. Once open, insert the item you wish to hold and close.

KewLid® Cover

The KewLid® cover is made to fit over a 55-gallon drum or 44-gallon trash can to hold your drink cooler in place while providing a trash receptacle and space for cups and single-serve drink mixes. The KewLid® cover is perfect for petrochemical, refining, construction or any business or activity where people are outdoors.

Why tap water and not bottled?

Bottled water costs up to 100 times as much as tap water per gallon and creates a huge environmental problem from both its production and disposal. Filtered tap water is also just as clean and healthy.

Part #: KL10101

Goggle Catcher™ Clip

The Goggle Catcher™ clip keeps your goggles, safety glasses or sunglasses securely attached to your hard hat so they are available when needed.

To use, back the screw out until it is flush with the bottom, slide the clip onto the brim and tighten the screw until snug. Then insert the goggles into the clip and stretch the strap across the goggles.

Hat Grabber® Hard Hat Component

The Hat Grabber® hard hat component offers you the most comfortable and secure way to wear a hard hat. It is a simple but effective component that is a perfect complement to your existing suspension gear and allows it to be adjusted more loosely for comfort. Using the Hat Grabber® hard hat component reduces neck strain, headaches and discomfort. To install, simply wrap it around the suspension system and buckle together.

Designed by construction workers who know the frustration of uncomfortable head protection that falls off easily!

Part #: HG10

About Us

Glove Guard LP is committed to providing quality products that meet the basic need of keeping up with required personal protective equipment. Located in Highlands, Texas, USA, some of the Limited Partners have been with the Glove Guard product since its inception. Glove Guard LP was founded in August, 1999 and maintains a strong commitment to manufacture products that consider the full scope of return on investment for the ultimate consumer.

It has been our policy to listen to the concerns of the people using the products and then respond by providing simple tools that work. Glove Guard's line of products has withstood the test of time by providing several aspects of bottom line savings while keeping the safety of the worker in mind. All products undergo inspection and testing to insure compliance with our own high standards of integrity and quality.

All of the products carry replacement guarantees if they break while doing their job. Glove Guard LP has a dedicated staff of personnel who genuinely care and are ready to assist both direct and indirect customers. We manufacture products but aim to never lose sight of people.

Contact your preferred safety supply company or call us for a distributor in your area.
