

## **Device Specifications**OEM TEMPERATURE METER PICO-T

For sensor specifications and response times, please refer to the webpages of the different sensor types.

| Specifications                                   |   |
|--|---|
| Weight   | 20 g  |
| Dimensions (WxDxH)                               | Ø 17 mm, 59 mm in length  |
| Sensor Connector                                 | Screw clamp for fibers with 3mm outer diameter  |
| Optical sensor port                              | 1 for optical fibers with PICO-connector for read out of optical temperature spots              |
| Compatible optical temperature sensors           | Contactless temperature sensors with optical fiber with PICO-connector                          |
| Temperature port                                 | 1 for Pt100 temperature sensor (solder points), for calibration of optical temperature sensor   |
| Measuring principle                              | Lifetime detection of REDFLASH luminescence via fiber-<br>optics                                |
| Excitation wavelength                            | 620 nm (orange-red)   |
| Emission wavelength                              | 760 nm (NIR)  |
| Max. sampling rate                               | 20 samples per seconds  |
| Logging software (optional)                      | Pyro Workbench or Pyro Developer Tool with USB adapter cable                                    |
| System requirements                              | USB, Windows 7 / 8 / 10   |
| Power supply                                     | Min. 3.3 V DC, max. 5.0 V DC  |
| Power consumption - in operation - in deep sleep | typ. 10 mA<br><100 µA (<10 µA on request)   |
| Digital interface                                | UART (3.0V levels, 5V tolerant),<br>19200 baud, 8 data bit, 1 stop bit, no parity, no handshake |

| Connector plug                                      | Phoenix Contact PTSM0,5/4-P-2,5   |
|---|---|
| Operating / storage temperature                     | 0-50°C / -20-70°C   |
| Max rel. humidity                                   | Non-condensing conditions   |
| Temperature sensing principle                       | 2-wire or 4-wire Pt100 via 24 bit ADC, must be soldered on                                    |
| Pt100 temperature sensor* range resolution accuracy | -30°C- 50°C<br>0.02°C<br>±0.5°C   |
| Optical temperature sensor                          | Refer to the separately available specifications for the connected optical temperature sensor |

<sup>\*</sup>Please note, that the optical sensors have a different temperature range
