SAFETY. SINCE 1898.™

FIRE HELMET H3000

The universal half-shell helmet type A offers optimal protection with high functionality and unrivaled comfort.

Thanks to its design the helmet allows a great field of view as well as easy to use radio communication.

ADVANTAGES AT A GLANCE

MAXIMUM PROTECTION THROUGH HIGH QUALITY

- ✔ Inner shell extends to the edge of the outer shell and thus offers maximum protection
- ✔ EN443 certified
- ✔ One size fits all outer shell

COMFORTABLE AND FUNCTIONAL

- ✔ Angled head ring ensures maximum wearing comfort and a firm, secure fit
- ✔ Head ring is vertically and horizontally height-adjustable
- ✔ Headband with 6-fold straps
- ✔ Chin straps with and without cheek pads

FOCUS ON WASHABILITY AND HYGIENE

- ✔ The cleaning durability was rated as above average in independent expert tests
- ✔ Can be completely dismantled in just a few simple steps
- ✔ Easy to clean inner shell due to special coating
- ✔ All individual parts are washable

EXCELLENT SERVICE

- ✔ Short delivery times
- ✔ On-site demo through dense dealer network
- ✔ Maintenance Training

LONG SERVICE LIFE

The Bullard H3000 is not subject to any binding segregation periods.

In addition, all spare parts* are individual available and can be easily replaced.

*Excluding inner and outer shell
